### JOHN M. THAYER

Hartford Times Picks Norwich Man for Next Democratic Governor.

Discussing state politics editorially Friday evening the Hartford Times said:

"For governor there are many and all willing. We mention but one name at this time. The people are waiting and looking for a candidate of spotless character, a man possessed of the qualities that stand for a governor in Connecticut, a man of truly executive ability. We have taken two able and popular governors from the bench, Baldwin and Holcomb. Why not another? John M. Thayer has been on the Connecticut bench since 1893. From the superior he went to the supreme court in 1907. All his mature life has been devoted to and interwoven with the bench of Connecticut and he is known the country over as a sound lawyer and an able and instructive lecturer. This is the same lecture that Rev. Timothy Crowley, the pastor of St. Mary's church, has invited Thayer to give the same talk next Tuesday afternoon at three o'clock, to an audience to be composed of the teachers and the students in the higher grades of the parochial schools. This is the same lecture that Father Keefe gave recently in the Knights of Columbus hall, in this city."

## MARKET GROWERS MAY ORGANIZE

Object of Proposed Organization is to Standardize Quality and Price—Further Plans to be Discussed Next Saturday.

With a view of standardizing products and prices, an effort is being made to organize the market growers in this vicinity, and to this end a meeting of some twelve or fifteen growers was held at the home of F. E. Peckham on Cornhill road on Saturday night, when the matter was discussed in its several phases.

Mr. Peckham, who is a member of both the national and state associations of growers, has long been in favor of such an organization in this city, and for that purpose he called a meeting of local growers at his home on Saturday night. Mr. Peckham stated Sunday night that the proposed organization is not in any sense of the word a "hold up" on the consumer but simply to standardize the qualities of products and to make prices uniform. It is felt that an organization of the local growers would not

only benefit the growers and wholesalers, but the retailer and consumer as well. It sometimes happens that growers are unjustly accused of favoring dealers through ignorance of the prices other growers find it necessary to charge, and the organization would in this manner offer some protection to the growers. In other cases where a grower is accustomed to charge higher prices than the majority of growers, the organization would bring about uniform prices.

According to the present plans the organization if formed would include only those growers who sell their products to wholesalers.

Another meeting is to be held at Mr. Peckham's home on next Saturday, when further plans in regard to the proposed organization will be discussed and possibly steps towards formal organization taken.

Timothy Crowley, the pastor of St. Mary's church, has invited Father Keefe to give the same talk next Tuesday afternoon at three o'clock, to an audience to be composed of the teachers and the students in the higher grades of the parochial schools. This is the same lecture that Father Keefe gave recently in the Knights of Columbus hall, in this city.

The mother of these bright little fellows in a recent letter said: "I am giving Father John's Medicine to my two sons and it has helped them wonderfully. Our oldest child has been taking it since he was 3 years old. He wasn't very strong but he is better now than ever he was. Father John's Medicine also helped me. I feel better and still take it now and then when I have a cough. I am sending the children's pictures to you so you can see how good they look since we have been giving them Father John's. The oldest is Howard M. Bell, and the baby is Junior O. Bell, 1811 Gillingham St., Frankford, Pa. (Signed) Mrs. John O. Bell, Frankford, Pa. Because it does not contain alcohol or dangerous drugs Father John's Medicine is safe for all the family. It is a pure food medicine which builds new tissue and strength. Give it to the children in the spring."
